GAP SCIENCE

LIVE WEBINAR

SHOE & TIRE MARKS:
UNLOCKING THE POWER OF OVERLOOKED IMPRESSION EVIDENCE

November 18, 2024 | **1400 – 1500 EDT**

COURSE DESCRIPTION

✔ In many investigations, valuable evidence is hiding in plain sight—impression evidence like shoe prints and tire marks that can be critical to solving a case. Yet, it's often overlooked or dismissed, even by experienced forensic teams. This webinar is designed to change that.

✔ Join us as we explore the most commonly overlooked impression evidence, reveal the key places to search for it, and discuss why documenting and collecting this evidence is vital, even when your department doesn't prioritize it. We'll walk through real-world examples, share best practices for collecting and preserving impressions, and provide practical tips on how to advocate for the importance of impression evidence in your casework.

✔ Whether you're a seasoned forensic scientist or new to crime scene investigations, this webinar will equip you with the knowledge and confidence to recognize, document, and leverage impression evidence to enhance your case outcomes.

WHY CHOOSE US?

Our specialized training and resources bridge the gap between generic leadership courses and traditional forensic technician training, equipping you with the skills and knowledge needed for professional development in your forensic career.
