

Train Your CSI Team Smarter, Not Harder

INTRODUCING "BODY DUMP AT THE BRIDGE" - A VIRTUAL REALITY MOCK SCENE FOR CSI TRAINING

No Setup. No Cleanup. Just Training.

Traditional crime scene training is expensive, time-consuming, and inconsistent. **Virtual reality mock crime scenes** offer a high-quality, immersive training solution allowing investigators to **train anytime, anywhere**—eliminating costly setup and cleanup.

Case Overview

Investigate a homicide in a remote wooded area beneath an old bridge, focusing on documentation and evidence collection (e.g. *biological evidence, trace evidence, etc.*)

- ✓ Immediate access after purchase
- ✓ **15 lessons** covering CSI fundamentals
- ✓ **Consistent training** for every investigator

Cost-Effective & Scalable

Train multiple investigators at no additional cost with **1 year of unlimited access**.

Multiple Applications

Use it for **new-hire training, proficiency testing, CSI employment interviews, refresher training, and academic programs**.

Easy Access - No Special Equipment Needed

Works on **any device** with internet—desktop, laptop, tablet, or smartphone. **No VR goggles required.**

Self-Directed Learning

Trainees work at their own pace, freeing up field training officers and supervisors for other tasks.
