

LIVE WORKSHOP

BASIC PHOTOSHOP WORKSHOP

FOUNDATIONS OF FORENSIC IMAGING

March 9, 2026

1000 - 1500 EST

March 10, 2026

1000 - 1300 EST

WORKSHOP DESCRIPTION

Whether you're new to Photoshop or need a refresher, this foundational course will guide you through the essential tools and techniques used in digital image editing and management. Designed with practical application in mind, this workshop will give you the confidence to navigate Photoshop effectively while maintaining image integrity and chain of custody—critical skills for forensic, law enforcement, and professional imaging environments.

Topics discussed will include:

- *Digital Image Storage & Custody*
- *File Types*
- *Resolution & Calibration*
- *Photoshop Orientation*
- *Color Modes*
- *Contrast Adjustments*
- *Orientation & Isolation of Images*

SYSTEM REQUIREMENTS

- Adobe Photoshop (full version, not Elements or Lightroom) to be installed in advance, but not expired (30 day trial).
- Computer utilizing needs adequate technical specs to run Photoshop (it is a memory-hungry application).
- Microphone or chat function and screen-share abilities to allow for questions.
