

UP TO $100

PER STUDENT FOR FULL SEMESTER ACCESS

The Future of Crime Scene Training is Here

A Cost-Effective Solution for Forensic Education Using Comprehensive Virtual Reality Mock Crime Scenes

Multi-Use Training for Various Scenarios:

- Course-Specific Skill Application
- Scene Documentation Practice
- Capstone or Final Projects
- Lab Assignments & Homework

What's Included in Your Semester Access?

- Mock Scenes of Your Choice
- Access to Forensic Virtual Community
- Instructor & Student Workbooks
- 15 Structured Lesson Plans

GAP SCIENCE

Strengthen Applied Learning Through Virtual Simulation

ACCESS MOCK SCENES FOR A FULL SEMESTER

No Setup. *No* Cleanup. Just Application.

Delivering high-quality crime scene training in an academic setting can be **resource-intensive** and **difficult to replicate** consistently. Virtual reality mock crime scenes provide a **controlled, repeatable environment** that supports curriculum objectives, reinforces investigative methodology, and enables realistic scene assessment without the burden of physical setup and teardown.

Current VR Mock Scenes

- **Hit and Run**
- **Gunshot Suicide**
- **Business Burglary**
- **Recovered Stolen Vehicle**
- **Residential Search Warrant**
- **Sexual Assault**

More scenes coming soon!

Cost-Effective Alternative to Physical Mock Scenes

Gain access to multiple ready-to-use scenes while reducing investment in props, setup, and teardown time.

Curriculum-Ready Integration

Easily incorporate into **forensic science or criminal justice** courses to reinforce scene assessment, documentation, and investigative methodology.

Accessible & Technology-Friendly

Runs on **any internet-connected device**—desktop, laptop, or tablet. No specialized VR equipment required.

Independent & Structured Learning

Students work at their own pace, allowing faculty to dedicate classroom time to discussion, analysis, and feedback, rather than setup.

Get Your Program Started Today! Scan the QR code to add mock scenes to your course next semester!
